Invitation to take part in the Dialog on Water - Integrated River Basin Management in Iran and Germany (DiWa)

2nd June 2020

As a follow up to one decade of cooperation between Ostfalia University and SANRU, we are delighted to announce a new scientific/cultural project entitled; “Dialog on Water - Integrated River Basin Management in Iran and Germany (DiWa)” under DAAD program as “Higher Education Dialogue with the Muslim World”.

DiWa project is going to orientate the dialogue in River Basin Management (RBM) to get the students familiar with the accomplishments of Iran and Germany besides the cultural activities that supposed to be reflected in it. The idea of higher education dialogue has been developed based on an interactive e-learning course to promote the modernization of teaching and foster the existing cooperation program. In fact, this is an opportunity to keep dynamically in touch together via an online platform and develop the DiWa e-learning course on RBM together.

The start point of our dialogue will be a webinar for you.

The DiWa team at Ostfalia would be happy if you could attend the webinar to introduce you the dialogue and its objectives in detail.

The webinar will be held on **Tuesday, June 02nd, 2020**

Time: 13:30 (Local Time in Sari)

By Prof. Dr.-Ing. Klaus Röttcher
